

## Expert Witness Training – the Basics

### *Expert Witness Training – the Basics*

#### About this Course

The provision of expert evidence is highly technical and specialised, and can be a very foreign experience for most witnesses.

Developed out of the ongoing difficulties faced by expert witnesses when providing (or looking to provide) expert evidence, this introductory course seeks to inform newly appointed and aspiring expert witnesses of this process.

This course serves as a foundation on which specialists and professionals with limited experience as an expert witness can understand more about the expert witness process. It also serves existing and practising experts as a timely refresher of their ongoing obligations as experts.

In this way expert witnesses (and their legal team) can be assured and confident that the expert will be well placed to engage in the expert witness process.

#### Aim

The aim of this course is to provide a general introduction to expert witnesses of their role and obligations as an expert witness.

#### Learning Outcomes

- Understand the legal process
- Understand the role of expert witnesses
- Knowledge of the expectations of expert witnesses
- Awareness of the rules and obligations of expert witnesses

## Expert Witness Training – the Basics

### Course Details

#### Witnesses

Courses are suitable for all expert witnesses, although particularly useful for:

- Aspiring expert witnesses
- Specialists and professionals with limited experience as an expert witness looking to understand more about the expert witness process
- Practising expert witnesses looking to refresh or maintain their ongoing Continuing Professional Development (CPD) requirements

Witness training courses  
*“prevent witnesses from being disadvantaged by ignorance... As such, witness familiarisation arrangements are not only permissible; they are to be welcomed.”*

Bar Council of England and  
Wales: Guidance on Witness  
Preparation 2019

#### Instructors

Courses are presented by practicing barristers who regularly cross examine expert witnesses as part of their practice. Most trainers are also advocacy instructors who teach advocacy and cross examination to trainee barristers as part of the various bar practice courses, both in Australia and internationally.

Our barristers are specially selected for their approachability, and ability to effectively explain practical legal concepts to all witnesses. They are accessible and personable while still maintaining their incisive technical skills.

All barristers are wholly independent of the facts and matters of any case(s) in which the expert witnesses may be involved.

#### Preparation

None required.

#### Location

- In person courses are immediately available in person in most Australian capital cities, and regionally and internationally on request.
- Remote courses via video-link are immediately available throughout Australia and worldwide.

#### Delivery Method

Typically this course is provided at the request of professional organisations for the benefit of their members, and of employers for the benefit of their staff.

From time to time this course is also provided publicly for the benefit of all experts who wish to attend. Please [contact us](#) if you would be interested in attending one of these publicly available courses.

### Forum and Jurisdictions

These courses are available for all legal forums – courts, tribunals, arbitrations, investigations, depositions, inquiries and commissions – anywhere evidence will be provided under cross examination.

Sessions can be provided for all Australian jurisdictions, and certain international jurisdictions.

### Group Sessions

This course is provided as a group session, with an unlimited number of attendees.

Ad hoc training sessions for individual experts or small groups can also be arranged.

### Duration and Cost

- Duration – 1 hour
- Please [contact us](#) to discuss pricing options

### Materials

All materials have been prepared by independent practising solicitors and barristers.

### Prior Experience

No prior experience is necessary.

### Course Structure

- Role of an expert
- Expert witness rules and obligations
- The court process
- Case law and examples

### Proximity to Engagement

Generally we recommend these introductory courses are conducted in preparation for, and in advance of, an expert's engagement as an expert.

### CPD

Counts as 1 hour to the expert's ongoing professional Continuing Professional Development (CPD) requirements, subject to the rules of the various professional bodies.

### Is it relevant for both experts and factual witnesses?

No – this training is only relevant to expert witnesses. See our [Witness Familiarisation Courses](#) for training for factual witnesses.

Witness training courses will  
*“assist witnesses to give their best at the trial or hearing in question without any risk that their evidence may become anything other than the witnesses' own uncontaminated evidence.”*
